

Dementia Help Now Phone App: Quick Setup Guide for iPhone & iPad

01.

Find the App Store icon on your phone and press it.

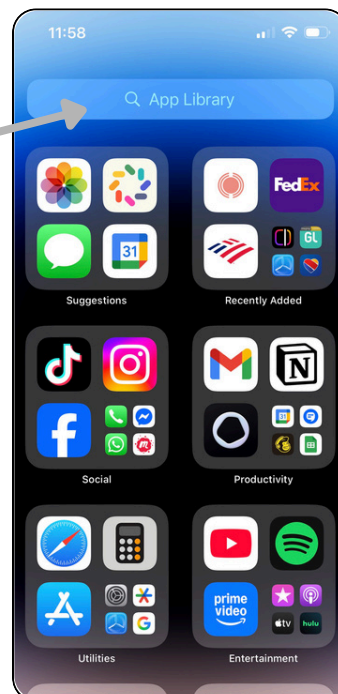

It looks like this:

02.

If you can't find it, search for the "app store" in your app library.

On your iPhone, go to your home screen (the screen with all the apps) and swipe left until you get to the end - this is where you'll see your app library page and you can search at the top.

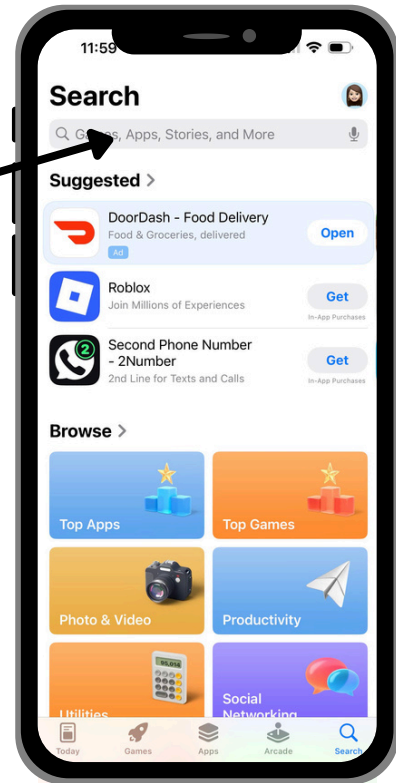

Dementia Help Now Phone App: Quick Setup Guide for iPhone & iPad

03.

Once the App Store is open, press in the “search” bar, and type “Dementia help now”

After searching, scroll down and find the app named “Dementia Help Now.” You may need to scroll down a bit to find it.

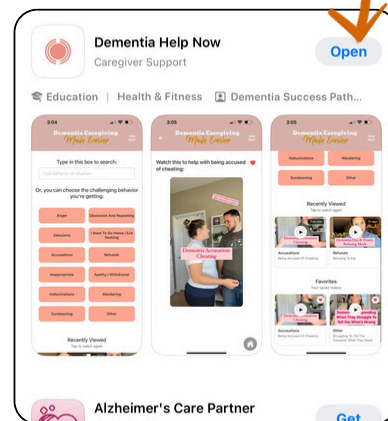

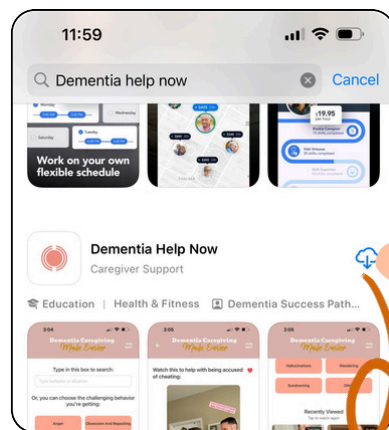

04.

Verify our logo and then press the button that looks like this:

You may need to wait a minute for it to finish downloading and install. The button will change from “install” to “open” once the app is ready.

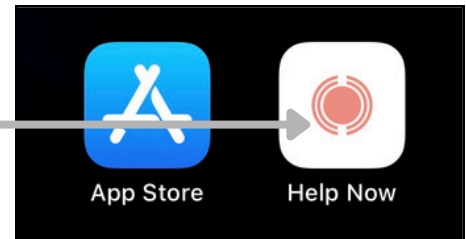

Do not spend money - it’s free to download. Make sure you are seeing this logo:

07.

Once its on your home screen, swipe left until you find the app and then go ahead and select it

08.

Then enter the email associated with your Dementia Caregiving Made Easier membership to use the app.

You do not need your password - the app will check the email you enter to see if it is associated with an active membership, and if it is, you'll get right in!
